Briefings on Marshall-Managed MSL-1 Mission on NASA TV Tues.

A series of briefings on the upcoming Marshall-managed first Microgravity Science Laboratory mission will air on NASA TV Tuesday. Briefings will begin with a mission overview at 8:30 a.m. CST followed by a science briefing at 9:30 a.m., the flexible heat pipe experiment briefing at 11:30 a.m. and the crew news conference at 1 p.m. The science briefing will be led by Marshall Mission Manager Teresa Vanhooser and Mission Scientist Dr. Michael Robinson. The mission is targeted for launch April 3.
